

MediPorter® MPT3.9 and MPT13.7

Re-useable shippers for same or next day deliveries

- Cost effective return to base shippers
- Lightweight solution
- Pre-qualified temperature control for up to 36 hours
- Refurbishment kits available
- Only one size of rigid bottlepack used per system
- Easy to assemble

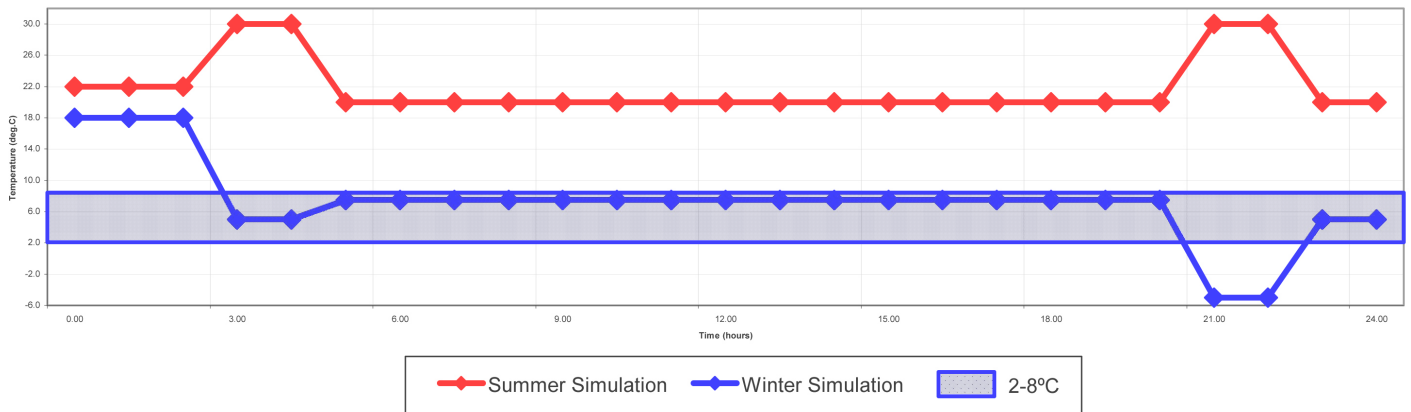

Cost effective temperature control for same or next day deliveries

The MediPorter® MPT3.9 and MPT13.7 combine the robust, re-useable outer case of our MediPorter® range with re-designed insulation material. This makes them a cost effective solution for sending temperature sensitive products on same or next day deliveries.

The MediPorter® MPT3.9 and MPT13.7 systems use a specially developed material designed to keep weight to a minimum. The material features a graphite component resulting in a very robust product.

The new MediPorter® systems are available in two sizes, both of which are qualified to maintain a constant temperature for products for up to 36 hours. The systems are ideal for making short duration shipments where a return to base infrastructure is in place. Refurbishment kits are available for both systems, extending their service life still further.

For more information on the MediPorter® MPT3.9 and MPT13.7, please contact us.

	External Dimensions (mm)	Volumetric Weight of System (kg)	Available Product Dimensions (mm)	Available Product Volume (l)	Weight of System (kg)	Duration (hrs)
Mediporter®MPT3.9	400 x 300 x 340	6.8	240 x 95 x 170	3.9	4.6	27
Mediporter®MPT13.7	600 x 400 x 340	13.6	438 x 188 x 167	13.7	8.1	36
